

# COLOUR<sup>by</sup> SHAPES

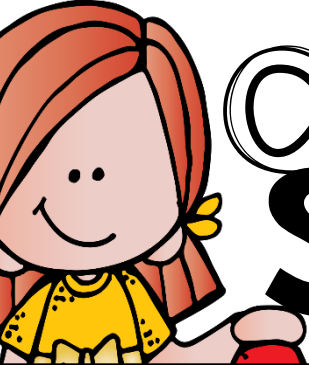

Colour by Shapes was created and designed to help students observe, visually discriminate, compare and categorize shapes.

When a child is able to recognize and name shapes it strengthens their ability compare and contrast similarities and differences in the world around them. Shape name identification will give children a descriptive set of vocabulary words to help communicate what they observe with adults and children. Shapes are the first symbol students will identify. This will help children identify more complicated symbols like letters and numbers in the future.

Colour by Shapes can help students:

- identify shapes
- analyze, compare and contrast similarities and differences in shapes
- visually discriminate between shapes
- identify shapes no matter their size or orientation

# COLOUR BY SHAPES

Spring Colour by Shapes is a fun and engaging way to practice shape identification. Children will strengthen their visual discrimination skills as well as their ability to compare and contrast similarities and differences in objects. Colour by Shape activities are perfect for small groups, independent work, morning work, homework, homeschooling and math intervention groups. The common shapes used in the sets are circle, square, triangle, rectangle, oval, diamond, star, heart and hexagon.

Find these activities below:

Page 3: circle, rectangle, square, triangle, oval

Page 4: star, triangle, rectangle, heart, diamond

Page 5: hexagon, circle, square, oval, heart

Page 6: diamond, rectangle, triangle, star, hexagon

Page 7: heart, oval, hexagon, circle, square

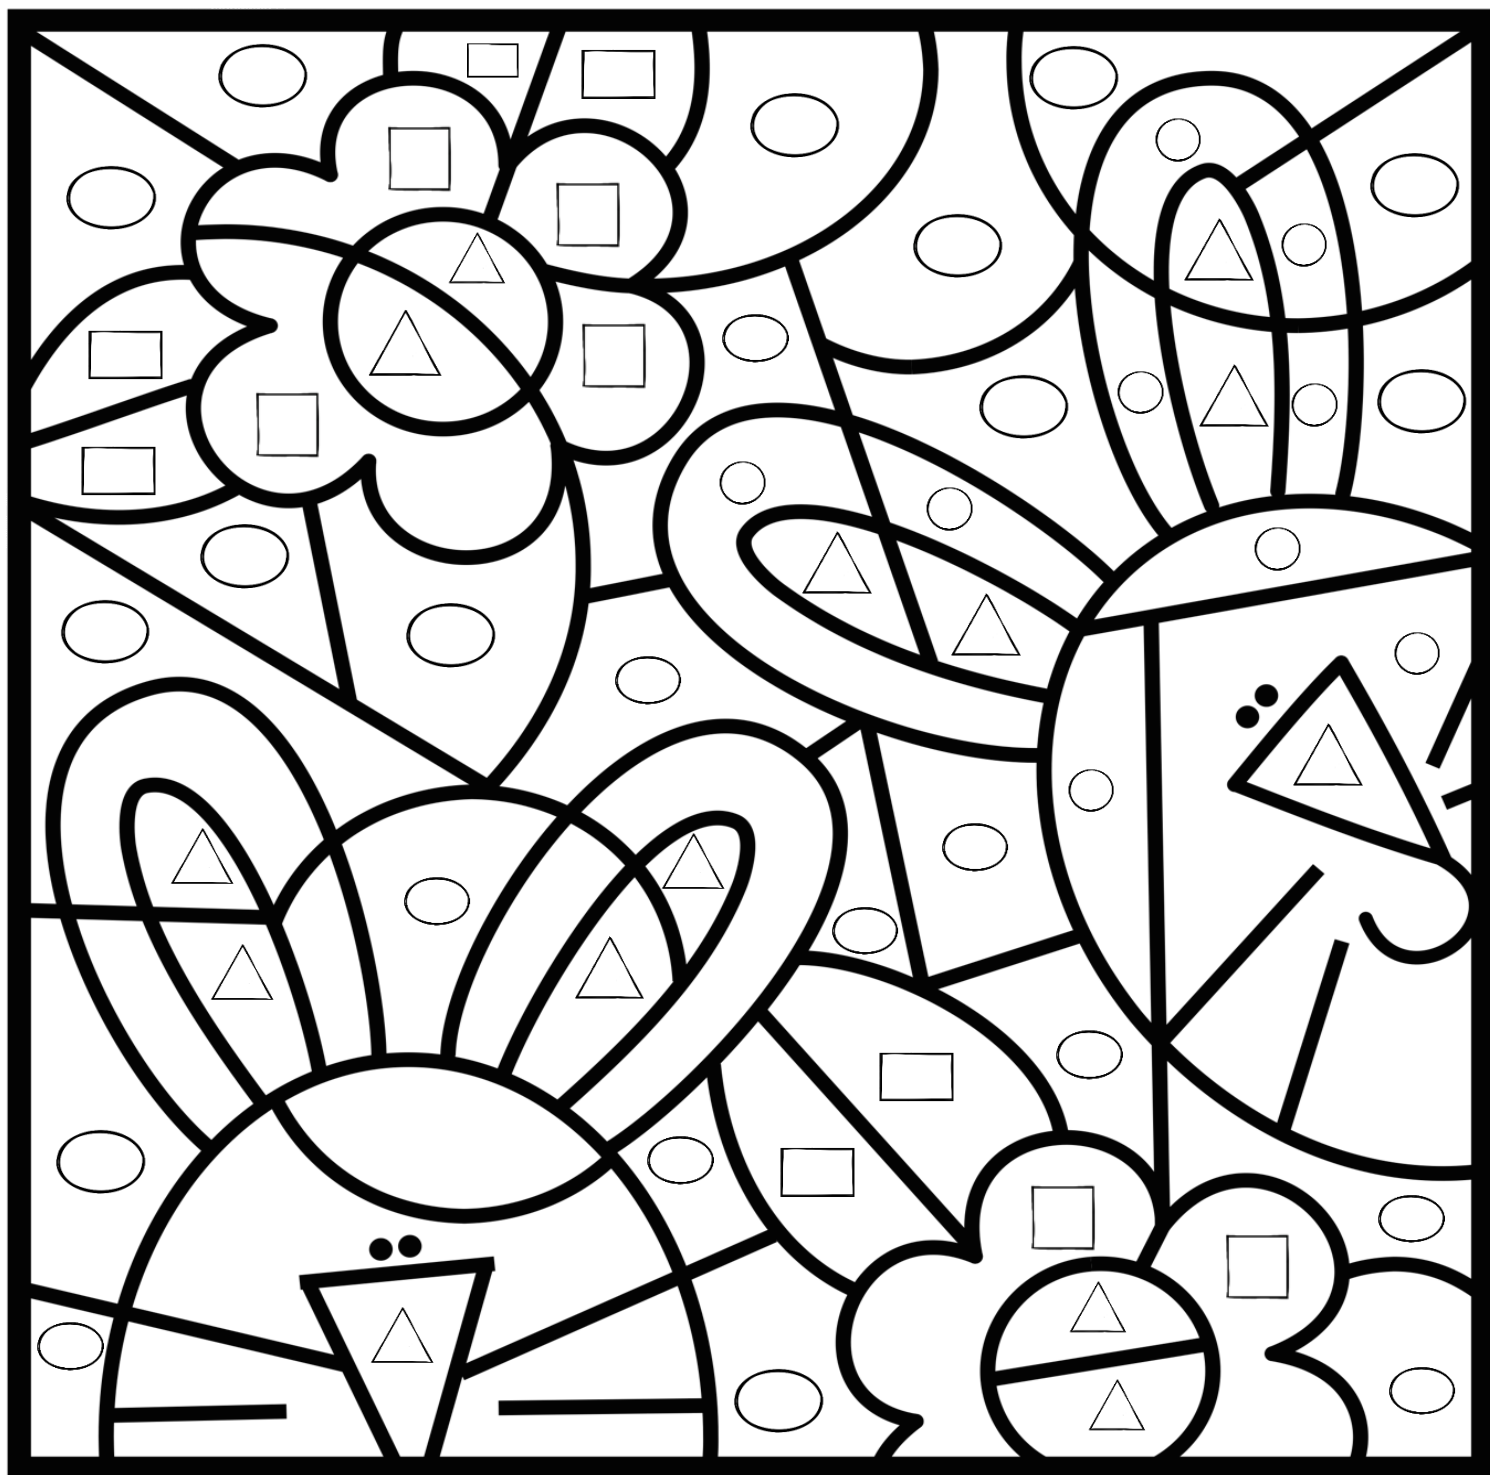

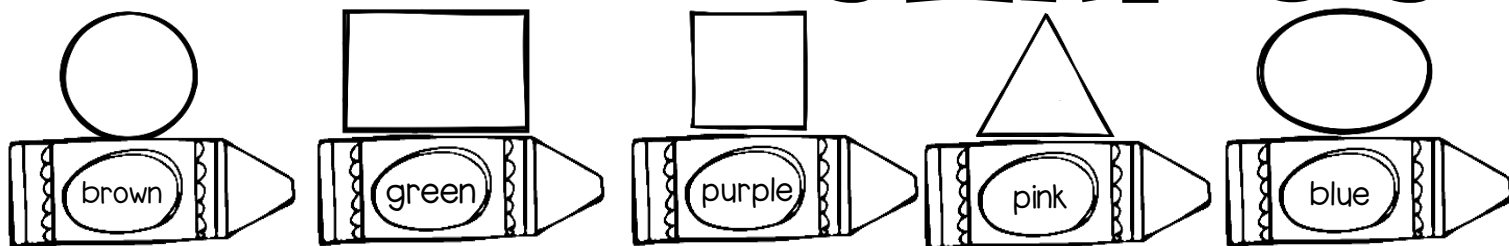

Page 8: oval, square, diamond, star, heart

Page 9: square, triangle, circle, hexagon, rectangle

Page 10: octagon, rectangle, pentagon, triangle, trapezoid
